## Demo Video:

[Google drive link](#)

## VCS:

github

<https://github.com/woshibala/team-project-for-csci3308>

## Deployment:

Heroku

<https://young-atoll-31732.herokuapp.com/heo/index/>

( Learn how to use, see [demo video](#) )

## Auto-doc:

Doxygen

We use Doxygen on all the .py file, including controllers and test in article fold.

The generated auto-doc is a html file.

[https://github.com/woshibala/team-project-for-csci3308/blob/master/my\\_blog/article/html/index.html](https://github.com/woshibala/team-project-for-csci3308/blob/master/my_blog/article/html/index.html)

Locally, you can find the html file at

“team-project-for-csci3308/my\_blog/article/html/index.html”
